Put your business in overdrive with media signage solutions from 212 Communications. We provide media signage solutions that enhance our customers' way of conducting business. Our products and services are designed to provide solutions to companies and organizations in different industries including the education, finance, retail, hospitality, advertising and others. We offer flexible solutions and support models that integrate with your business strategies and operations. Our services allow our customers to focus on their core business while delivering the intended messages and generating revenue streams. Our staff ensures that our customers are equipped with the knowledge and training to take full advantage of the services we offer.

Our media signage solution is a greener way to relay messages without the use of prints material such as paper or plastic. We have a recycling model for our equipment that minimizes that impact on our environment.

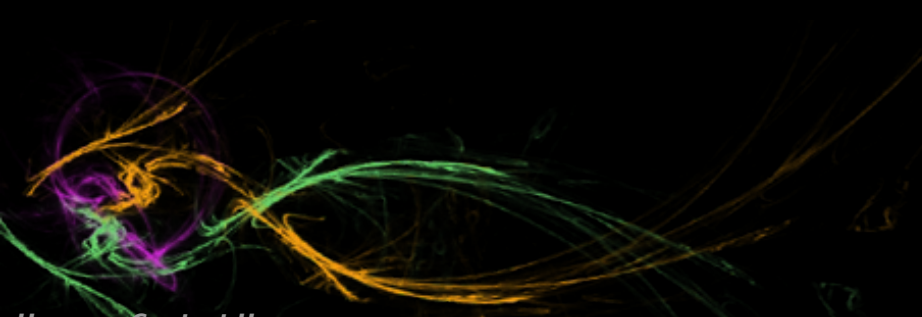

News:

- Mac Mini is now supported as Media Player
- New Mobile Controller to monitor and control stations from your mobile phone (**Mobile Controller**)
